ACKNOWLEDGMENTS	iii
PREFACE	v
EXECUTIVE SUMMARY	vii
HELPFUL INFORMATION.....	xv
ACRONYMS.....	xix
UNITS.....	xxv
1. INTRODUCTION.....	1.1
1.1 Idaho National Laboratory Site Primary Program Missions and Facilities.....	1.1
1.1.1 <i>Idaho National Laboratory</i>	1.2
1.1.2 <i>Idaho Cleanup Project</i>	1.2
1.1.3 <i>Advanced Mixed Waste Treatment Project</i>	1.2
1.1.4 <i>Primary Idaho National Laboratory Site Facilities</i>	1.3
1.2 Physical Setting of the Idaho National Laboratory Site.....	1.7
1.3 History of the INL Site.....	1.8
1.4 Regional Impact.....	1.9
2. ENVIRONMENTAL COMPLIANCE SUMMARY.....	2.2
2.1 Air Quality and Radiation Protection.....	2.2
2.1.1 <i>Clean Air Act</i>	2.2
2.1.2 <i>DOE Order 5400.5, Radiation Protection the Public and the Environment</i> ..	2.3
2.2 Environmental Remediation and Protection.....	2.4
2.2.1 <i>Comprehensive Environmental Response, Compensation, and Liability Act</i>	2.4
2.2.2 <i>DOE Order 450.1A, Environmental Protection Program</i>	2.5
2.2.3 <i>Emergency Planning and Community Right-to-Know Act</i>	2.5
2.2.4 <i>National Environmental Policy Act</i>	2.6
2.2.5 <i>Endangered Species Act</i>	2.8
2.2.6 <i>Executive Order 11988 – Floodplain Management</i>	2.8
2.2.7 <i>Executive Order 11990 – Protection of Wetlands</i>	2.9
2.2.8 <i>Executive Order 13423 – Strengthening Federal Environmental, Energy, and Transportation Management</i>	2.9
2.3 Waste Management.....	2.11
2.3.1 <i>Resource Conservation and Recovery Act</i>	2.11
2.3.2 <i>Federal Facility Compliance Act</i>	2.11
2.3.3 <i>Toxic Substances Control Act</i>	2.12
2.3.4 <i>DOE Order 435.1, Radioactive Waste Management</i>	2.12

2.3.5	<i>1995 Settlement Agreement</i>	2.12
2.4	Water Quality and Protection	2.12
2.4.1	<i>Clean Water Act</i>	2.12
2.4.2	<i>Safe Drinking Water Act</i>	2.13
2.4.3	<i>State of Idaho Wastewater Reuse Permits</i>	2.14
2.5	Cultural and Historic Resources Protection	2.14
2.5.1	<i>National Historic Preservation Act</i>	2.14
2.5.2	<i>Native American Graves Protection and Repatriation Act</i>	2.17
2.6	Summary of Environmental Permits	2.17
3.	ENVIRONMENTAL PROGRAM INFORMATION	3.2
3.1	Environmental Monitoring Programs	3.2
3.1.1	<i>Sitewide Monitoring Committees</i>	3.4
3.2	Environmental Restoration	3.4
3.2.1	<i>Waste Area Group 1 – Test Area North</i>	3.10
3.2.2	<i>Waste Area Group 2 – Advanced Test Reactor Complex</i>	3.10
3.2.3	<i>Waste Area Group 3 – Idaho Nuclear Technology and Engineering Center</i>	3.10
3.2.4	<i>Waste Area Group 4 – Central Facilities Area</i>	3.12
3.2.5	<i>Waste Area Group 5 – Critical Infrastructure Test Range/Auxiliary Reactor Area</i>	3.12
3.2.6	<i>Waste Area Group 6/10 – Experimental Breeder Reactor I/Boiling Water Reactor Experiment, Miscellaneous Sites, Eastern Snake River Plain Aquifer</i>	3.12
3.2.7	<i>Waste Area Group 7 – Radioactive Waste Management Complex</i>	3.12
3.2.8	<i>Waste Area Group 8 – Naval Reactors Facility</i>	3.13
3.2.9	<i>Waste Area Group 9 – Materials and Fuels Complex</i>	3.14
3.3	Waste Management and Disposition	3.14
3.3.1	<i>Federal Facility Compliance Act</i>	3.14
3.3.2	<i>Advanced Mixed Waste Treatment Project</i>	3.14
3.3.3	<i>High-Level Waste and Facilities Disposition</i>	3.15
3.3.4	<i>Low-Level and Mixed Radioactive Waste</i>	3.16
3.4	Environmental Management System	3.16
3.4.1	<i>Pollution Prevention and Sustainability</i>	3.17
3.5	Other Major Environmental Issues and Activities	3.20
3.5.1	<i>Deactivation, Decontamination, and Decommissioning Activities</i>	3.20
3.5.2	<i>Spent Nuclear Fuel</i>	3.21

3.5.3	<i>Environmental Oversight and Monitoring Agreement</i>	3.24
3.5.4	<i>Citizens Advisory Board</i>	3.24
4.	ENVIRONMENTAL MONITORING PROGRAMS (AIR)	4.2
4.1	Purpose and Organization of Air Monitoring Programs	4.2
4.2	Air Sampling	4.4
4.2.1	<i>Airborne Effluents</i>	4.5
4.2.2	<i>Ambient Air</i>	4.6
4.2.3	<i>Atmospheric Moisture</i>	4.23
4.2.4	<i>Precipitation</i>	4.24
4.2.5	<i>Suspended Particulates</i>	4.25
4.2.6	<i>IMPROVE Samplers</i>	4.25
4.3	Waste Management Surveillance Monitoring	4.25
4.3.1	<i>Gross Activity</i>	4.25
4.3.2	<i>Specific Radionuclides</i>	4.26
5.	COMPLIANCE MONITORING FOR LIQUID EFFLUENTS, GROUNDWATER, AND SURFACE WATER	5.2
5.1	Summary of Monitoring Programs	5.2
5.2	Liquid Effluent and Related Groundwater Compliance Monitoring	5.4
5.2.1	<i>Research and Education Campus</i>	5.5
5.2.2	<i>Central Facilities Area Sewage Treatment Facility</i>	5.6
5.2.3	<i>Advanced Test Reactor Complex Cold Waste Pond</i>	5.7
5.2.4	<i>Idaho Nuclear Technology and Engineering Center New Percolation Ponds and the Sewage Treatment Plant</i>	5.8
5.2.5	<i>Test Area North/Technical Support Facility Sewage Treatment Facility and Disposal Pond</i>	5.13
5.3	Liquid Effluent Surveillance Monitoring	5.15
5.3.1	<i>Advanced Test Reactor Complex</i>	5.15
5.3.2	<i>Central Facilities Area</i>	5.16
5.3.3	<i>Idaho Nuclear Technology and Engineering Center</i>	5.16
5.3.4	<i>Materials and Fuels Complex</i>	5.16
5.4	Drinking Water Monitoring	5.16
5.4.1	<i>INL Site Drinking Water Monitoring Results</i>	5.17
5.4.2	<i>Central Facilities Area</i>	5.17
5.4.3	<i>Idaho Nuclear Technology and Engineering Center</i>	5.19
5.4.4	<i>Materials and Fuels Complex and Advanced Test Reactor Complex</i>	5.19
5.4.5	<i>Radioactive Waste Management Complex</i>	5.19

5.4.6	<i>Test Area North/Technical Support Facility</i>	5.19
5.5	Waste Management Surveillance Surface Water Sampling.....	5.20
6.	ENVIRONMENTAL MONITORING PROGRAM—EASTERN SNAKE RIVER PLAIN AQUIFER	6.2
6.1	Summary of Monitoring Programs	6.3
6.2	Hydrogeology of the Idaho National Laboratory Site	6.3
6.3	Hydrogeologic Data Management.....	6.5
6.4	Aquifer Studies of the Idaho National Laboratory Site and the Eastern Snake River Plain Aquifer.....	6.6
6.5	U.S. Geological Survey Radiological Groundwater Monitoring at the Idaho National Laboratory Site	6.8
6.5.1	<i>Tritium</i>	6.9
6.5.2	<i>Strontium-90</i>	6.11
6.5.3	<i>Summary of other USGS Radiological Groundwater Monitoring</i>	6.13
6.6	U.S. Geological Survey Nonradiological Groundwater Monitoring at the Idaho National Laboratory Site.....	6.14
6.7	CERCLA Groundwater Monitoring During 2008	6.14
6.7.1	<i>Summary of Waste Area Group 1 Groundwater Monitoring Results</i>	6.15
6.7.2	<i>Summary of Waste Area Group 2 Groundwater Monitoring Results</i>	6.20
6.7.3	<i>Summary of Waste Area Group 3 Groundwater Monitoring Results</i>	6.23
6.7.4	<i>Summary of Waste Area Group 4 Groundwater Monitoring Results</i>	6.24
6.7.5	<i>Summary of Waste Area Group 5 Groundwater Monitoring Results</i>	6.27
6.7.6	<i>Summary of Waste Area Group 7 Groundwater Monitoring Results</i>	6.27
6.7.7	<i>Summary of Waste Area Group 9 Groundwater Monitoring Results</i>	6.30
6.7.8	<i>Summary of Waste Area Group 10 Groundwater Monitoring Results</i>	6.30
7.	ENVIRONMENTAL MONITORING PROGRAMS - AGRICULTURAL PRODUCTS, WILD LIFE, SOIL, AND DIRECT RADIATION	7.2
7.1	Agricultural Products and Biota Sampling.....	7.2
7.1.1	<i>Milk</i>	7.2
7.1.2	<i>Lettuce</i>	7-3
7.1.3	<i>Wheat</i>	7.4
7.1.4	<i>Potatoes</i>	7.4
7.1.5	<i>Large Game Animals</i>	7.7
7.1.6	<i>Waterfowl</i>	7.7

7.2	Soil Sampling	7.9
7.2.1	<i>Wastewater Reuse Permit Soil Sampling at CFA</i>	7.10
7.3	Direct Radiation.....	7.14
7.4	Waste Management Surveillance Sampling	7.18
7.4.1	<i>Vegetation Sampling</i>	7.18
7.4.2	<i>Soil Sampling</i>	7.18
7.4.3	<i>Direct Radiation</i>	7.19
8.	DOSE TO THE PUBLIC AND BIOTA	8.1
8.1	General Information	8.2
8.2	Maximum Individual Dose	8.3
8.3	Eighty Kilometer (50 Mile) Population Dose.....	8.3
8.4	Individual Dose—Game Ingestion Pathway.....	8.8
8.4.1	<i>Waterfowl</i>	8.8
8.4.2	<i>Big Game Animals</i>	8.9
8.5	Biota Dose Assessment	8.10
8.5.1	<i>Introduction</i>	8.10
8.5.2	<i>Aquatic Evaluation</i>	8.11
8.5.3	<i>Terrestrial Evaluation</i>	8.11
9.	ECOLOGICAL RESEARCH AT THE IDAHO NATIONAL ENVIRONMENTAL RESEARCH PARK	9.2
9.1	Determining Greater Sage-grouse Abundance and Patterns on Landscape use on the Idaho National Laboratory Site.....	9.4
Investigators and Affiliations	9.4	
Funding Sources.....	9.4	
Background.....	9.4	
Objectives	9.5	
Accomplishments through 2008.....	9.5	
Results	9.6	
Plans for Continuation.....	9.8	
Publications, Theses, and Reports	9.9	
9.2	Development and Evaluation of a Monitoring Program for Pygmy Rabbits	9.11
Investigators and Affiliations	9.11	
Funding Sources.....	9.11	
Background.....	9.12	

Objectives	9.12
Accomplishments through 2008.....	9.12
Plans for Continuation.....	9.14
Publications, Reports, and Theses	9.14
9.3 Minimizing Risk of Cheatgrass Invasion and Dominance at the Idaho National Laboratory.....	9.15
Investigators and Affiliations	9.15
Funding Sources.....	9.15
Background.....	9.15
Objectives	9.15
Accomplishments through 2008.....	9.16
Results	9.17
Plans for Continuation.....	9.18
Publications, Reports, and Theses	9.18
9.4 Plant Community Classification and Mapping at the Idaho National Laboratory .	9.18
Investigators and Affiliations	9.18
Funding Source.....	9.18
Background.....	9.18
Objectives	9.19
Accomplishments through 2008.....	9.19
Results	9.22
Plans for Continuation.....	9.23
Publications, Reports, and Theses	9.23
9.5 Landscape Genetics of Great Basin Rattlesnakes, <i>Crotalus oreganos lutosus</i> , on the Upper Snake River Plain	9.23
Investigators and Affiliations	9.23
Funding Sources.....	9.24
Background.....	9.24
Objectives	9.24
Accomplishments through 2008.....	9.25
Results	9.25
Plans for Continuation.....	9.25
Publications, Reports, and Theses	9.25
9.6 Historical Fire Regimes of Wyoming and Basin Big Sagebrush Steppe on the Snake River Plain.....	9.29
Investigators and Affiliations	9.29
Funding Sources.....	9.29
Background.....	9.29
Objectives	9.29
Accomplishments through 2008.....	9.30

Results	9.30
Plans for Continuation.....	9.32
Publications, Theses, and Reports	9.32
Thesis	9.32
Presentations	9.35
9.7 Dynamics of Post-wildfire Wind Erosion of Soil in Semiarid Rangelands in Idaho	9.36
Investigators and Affiliations	9.36
Funding Sources.....	9.36
Background.....	9.36
Objectives	9.36
Accomplishments through 2008.....	9.37
Results	9.37
Plans for Continuation.....	9.37
Publications, Reports, and Theses	9.39
9.8 Spatial and Temporal Variability in Soil, Vegetation, and Aerodynamic Properties in Wind-eroded, Post-fire Sagebrush Steppe.....	9.40
Investigators and Affiliations	9.40
Funding Sources.....	9.40
Background.....	9.40
Objectives	9.40
Accomplishments through 2008.....	9.41
Results	9.41
Plans for Continuation.....	9.41
Publications, Theses, and Reports	9.41
9.9 Developing a Habitat Selection Model to Predict the Distribution and Abundance of the Sagebrush Defoliator Moth (<i>Aroga websteri</i> Clarke)	9.42
Investigators and Affiliations	9.42
Funding Sources.....	9.42
Background.....	9.42
Objectives	9.42
Accomplishments through 2008.....	9.42
Results	9.43
Plans for Continuation.....	9.44
Publications, Theses, and Reports	9.44
9.10 Long-term Vegetation Transects	9.44
Investigators and Affiliations	9.44
Funding Sources	9.44
Background.....	9.44

Objectives	9.46
Accomplishments through 2008.....	9.47
Results	9.47
Plans for Continuation.....	9.48
9.11 The Protective Cap/Biobarrier Experiment	9.49
Investigators and Affiliations	9.49
Funding Sources.....	9.49
Background.....	9.49
Objectives	9.50
Accomplishments through 2008.....	9.50
Results	9.51
Publication, Reports, and Theses	9.56
Plans for Continuation.....	9.57
9.12 The Influence of Precipitation, Vegetation, and Soil Properties on the Ecohydrology of the Eastern Snake River Plain	9.57
Investigators and Affiliations	9.57
Funding Sources.....	9.57
Background.....	9.57
Objectives	9.58
Accomplishments through 2008.....	9.58
Results	9.58
Plans for Continuation.....	9.58
9.13 Common Raven, <i>Corvus corax</i> , Abundance in Relation to Anthropogenic Resources and Potential Impact to Greater Sage-grouse (<i>Centrocercus</i> <i>urophasianus</i>) Occuring on the Idaho National Laboratory Site, a Preliminary Analysis	9.58
Investigators and Affiliations	9.58
Funding Sources.....	9.59
Background.....	9.59
Objectives	9.60
Accomplishments through 2008.....	9.60
Results	9.60
Plans for Continuation.....	9.62
Literature Cited	9.63
10. QUALITY ASSURANCE	10.1
10.1 Laboratory Intercomparison Programs.....	10.2
10.1.1 Mixed Analyte Performance Evaluation Program	10.3
10.1.2 2008 Mixed Analyte Performance Evaluation Program Results	10.3
10.1.3 National Institute of Standards and Technology.....	10.3
10.1.4 Dosimetry.....	10.3

10.1.5 Other Programs.....	10.3
10.2 Data Precision and Verification	10.6
10.2.1 Duplicate Sampling within Organizations.....	10.6
10.2.2 Duplicate Sampling between Organizations	10.7
10.3 Program Quality Assurance.....	10.7
10.3.1 Liquid Effluent Program Quality Assurance/Quality Control.....	10.7
10.3.2 Wastewater Land Application Permit Groundwater Monitoring Quality Assurance/Quality Control.....	10.14
10.3.3 Drinking Water Program Quality Assurance/Quality Control.....	10.16
10.3.4 Environmental Surveillance, Education and Research Program Quality Assurance/Quality Control	10.18
10.3.5 INL Environmental Surveillance Program Quality Assurance/Quality Control.....	10.18
10.3.6 ICP Environmental Services Waste Management Surveillance Quality Assurance/Quality Control	10.18
Appendix A. Environmental Statutes and Regulations	A.1
Appendix B. Summary of Historical Environmental Monitoring	B.1
B.1 Agricultural Products and Vegetation Monitoring	B.1
B.2 Air Monitoring	B.2
B.3 Animal Tissue Monitoring	B.4
B.4 Direct Radiation Monitoring.....	B.4
B.5 Meteorological Monitoring	B.4
B.6 Soil Monitoring	B.5
B.7 Water Monitoring.....	B.5
Appendix C. Statistical Methods Used in the Idaho National Laboratory Annual Site Environmental Report.....	C.1
C.1 Guidelines for Reporting Results	C.1
C.2 Initial Radiological Screening.....	C.1

C.3 Reporting Levels	C.1
C.4 Statistical Tests Used to Assess Data	C.3
C.5 Test of Normality	C.4
C.6 Comparison of Two Groups	C.6
C.7 Comparison of Many Groups	C.7
C.8 Tests for Trends over Time	C.9
C.9 Comparison of Slopes	C.11
Appendix D. Chapter 5 Addendum	D.1
Appendix E. U.S. Geological Survey 2008 Publication Abstracts	E.1
Appendix F. Onsite Dosimeter Measurements and Locations	F.1
Appendix G. Glossary	G.1

LIST OF FIGURES

Figure 1-1. Location of the Idaho National Laboratory Site, Showing Facilities	1.4
Figure 3-1. Potential Exposure Pathways to Humans from the INL Site	3.3
Figure 3-2. Map of the Idaho National Laboratory Site Showing Locations of the Facilities and Corresponding Waste Area Groups	3.11
Figure 3-3. Radioactive Waste Management Complex Subsurface Disposal Area (2008)	3.13
Figure 3-4. Federal Electronics Challenge Awards Ceremony in Big Sky, Montana	3.20
Figure 4-1. Idaho National Laboratory Site Environmental Surveillance Air Sampling Locations	4.5
Figure 4-2. Median Weekly Gross Alpha Concentrations in Air (2008)	4.14
Figure 4-3. Frequency Distribution of Gross Alpha Activity Detected Above the 3-Sigma Uncertainty in Air Filters Collected by the ESER Contractor (1996–2008) ...	4.16
Figure 4-4. Median Weekly Gross Beta Concentrations in Air (2008)	4.17
Figure 4-5. Frequency Distribution of Gross Beta Activity Detected Above the 3-Sigma Uncertainty in Air Filters Collected by the ESER Contractor (1996–2008). ...	4.19
Figure 4-6. Comparisons of Gross Beta Concentrations Measured in Air at Distant, Boundary, and INL Site Locations by the ESER Contractor (2008)	4.20
Figure 4-7. Frequency Distribution of Americium-241 Detected Above the 3-Sigma Uncertainty in Air Filters Collected by the ESER Contractor (1997–2008) ...	4.22

Figure 4-8.	Frequency Distribution of Plutonium-239/240 Detected Above the 3-Sigma Uncertainty in Air Filters Collected by the ESER Contractor (1997–2008).....	4.23

 20 (2008)..... F.10

LIST OF TABLES

Table HI-1. Fractions and Multiples of Units..... xvii
 Table HI-2. Most Commonly Used Radionuclides and Symbols Used in this Report..... xviii
 Table 2-1. INL Site Emergency Planning and Community Right-to-Know Act (EPCRA)
 Reporting Status (2008)..... 2.4
 Table 2-2. Estimated Future Energy and Water Use Reduction for the INL Site (2008).2.10
 Table 2-3. Cultural Resources Surveys Performed at the INL Site (2008) 2.15
 Table 2-4. Environmental Permits for the INL Site (2008) 2.18
 Table 3-1. Environmental Surveillance, Education and Research Program Summary
 (2008)..... 3.5
 Table 3-2. Idaho National Laboratory Contractor Air and Environmental Radiation
 Surveillance Summary (2008)..... 3.6
 Table 3-3. Idaho National Laboratory Contractor Drinking Water Program Summary
 (2008)..... 3.6
 Table 3-4. Idaho Cleanup Project Contractor Environmental Surveillance Program Air,
 Surface Water, Vegetation, and Radiation Survey Summary (2008) 3.7
 Table 3-5. Idaho Cleanup Project Drinking Water Program Summary (2008) 3.8
 Table 3-6. U.S. Geological Survey Monitoring Program Summary (2008) 3.9
 Table 3-7. Reused and Recycled Materials (2008)..... 3.21
 Table 4-1. Air Monitoring Activities by Organization..... 4.3
 Table 4-2. Radionuclide Composition of Idaho National Laboratory Site Airborne
 Effluents (2008)..... 4.7
 Table 4-3. Median Annual Gross Alpha Concentrations in Air (2008)..... 4.15
 Table 4-4. Median Annual Gross Beta Concentrations in Air (2008)..... 4.18
 Table 4-5. Human-made Radionuclides in ESER Contractor Quarterly Composite Air
 Samples (2008)..... 4.21
 Table 4-6. Human-made Radionuclides in INL Site Contractor Quarterly Composited
 Air Samples (2008) 4.21
 Table 4-7. Tritium Concentration Ranges in ESER Contractor Atmospheric Moisture
 Samples (2008)..... 4.24
 Table 4-8. Tritium Concentration Ranges in ESER Contractor Precipitation Samples
 (2008)..... 4.24

Table 4-9.	ICP Contractor Gross Activity Concentrations (2008).....	4.26
Table 4-10.	Human-made Radionuclides in ICP Contractor Air Samples (2008)	4.27
Table 5-1.	Water Monitoring at the Idaho National Laboratory Site and the Research and Education Campus.....	5.3
Table 5-2.	Status of Wastewater Reuse Permits	5.5
Table 5-3.	Semiannual Effluent Monitoring Results for Research and Education Campus (2008)	5.6
Table 5-4.	Total Nitrogen and Total Suspended Solids Effluent Monitoring Results at CPP-797 (2008)	5.9
Table 5-5.	Hydraulic Loading Rates for Idaho Nuclear Technology and Engineering Center New Percolation Ponds (2008)	5.10
Table 5-6.	Preoperational Concentrations and Secondary Constituent Standards	5.12
Table 5-7.	Groundwater Exceedances for Test Area North/Technical Support Facility Sewage Treatment Facility for April (2008)	5.15
Table 5-8.	Trichloroethylene Concentrations at Test Area North/Technical Support Facility Well #2 and Distribution System (2008)	5.20
Table 5-9.	Surface Water Runoff Results at RWMC Subsurface Disposal Area (2008)	5.22
Table 6-1.	Groundwater, Surface Water, and Drinking Water Monitoring at the INL Site and Surrounding Area	6.6
Table 6-2.	Purgeable Organic Compounds in Annual U.S. Geological Survey Well Samples (2008).....	6.16
Table 6-3.	Purgeable Organic Compounds in Monthly Production Well Samples at the Radioactive Waste Management Complex (2008)	6.16
Table 6-4.	Waste Area Group 2 Aquifer Groundwater Quality Summary (2008)	6.22
Table 6-5.	Comparison of Waste Area Group 4 Groundwater Sampling Results to Regulatory Levels (2008).....	6.26
Table 6-6.	Summary of Waste Area Group 7 Aquifer Sampling and Analyses Data for Relevant Analytes (2008).....	6.29
Table 6-7.	Comparisons of Detected Analytes to Drinking Water Standards at Waste Area Group 9 Monitoring Wells (2008)	6.32
Table 6-8.	Comparison of Detected Analytes with Maximum Contaminant Levels or Secondary Maximum Contaminant Levels for Waste Area Group 10 (2008).....	6.35
Table 7-1.	Other Monitoring Activities at the Idaho National Laboratory.....	7.3
Table 7-2.	Strontium-90 Concentrations in Lettuce (2003–2008)	7.5
Table 7-3.	Strontium-90 Concentrations in Wheat (2003–2008).....	7.6
Table 7-4.	Radionuclide Concentrations Detected in Waterfowl.....	7.8
Table 7-5.	2008 In Situ Gamma Scan Results for INL Sites and Large Grid	7.12
Table 7-6.	Soil Monitoring Results for the Central Facilities Area Sewage Treatment Facility Wastewater Reuse Permit Area (2007 and 2008)	7.13
Table 7-7.	Annual Environmental Radiation Exposures (2004–2008)	7.16
Table 7-8.	Calculated Effective Dose Equivalent from Background Sources (2008)	7.18
Table 7-9.	Radioactive Waste Management Complex Survey Comparison to Previous Years.....	7.22

Table 8-1.	Comparison of Effective Dose Equivalents (2004–2008)	8.3
Table 8-2.	Dose to Population within 80 Kilometers (50 miles) of INL Site Facilities (2008).....	8.6
Table 8-3.	Contribution to Dose to Maximally Exposed Individual by Facility (2008).....	8.7
Table 8-4.	Summary of Annual Effective Dose Equivalents from INL Site Operations (2008).....	8.8
Table 8-5.	Maximum Annual Potential Dose From Ingesting Tissue Of Waterfowl Using INL Site Wastewater Disposal Ponds in 2008	8.9
Table 8-6.	Radionuclides That Can Currently be Evaluated Using the Graded Approach (DOE 2002)	8.13
Table 8-7.	Biota Dose Assessment of Aquatic Ecosystems on the INL Site (2008).....	8.14
Table 8-8.	Biota Dose Assessment of Terrestrial Ecosystems on the INL Site (2008)..	8.14
Table 9-1.	Summary Results From Censuses of Pygmy Rabbit Burrow Systems Conducted on 24 16-ha Plots During September Through November 2008	9.14
Table 9-2.	Analysis of Molecular Variance (AMOVA) Tables for All Samples in the Study	9.26
Table 9-3.	Fst Values, Indicating Pairwise Genetic Connectivity for Each Den Pairing .	9.26
Table 9-4.	Initial Mantel Test Results, Correlating Fst (Genetic Connectivity) with the Average Availability of Denning Habitat Between Dens.....	9.28
Table 9-5.	The Number of Fires by Size Class, Over Time, in the Snake River Plain (Top) and Northern Basin and Range (Bottom) Ecoregions,1960-2003	9.32
Table 9-6.	The Average Fire Size (Top) and Total Area Burned (Bottom) in Hectares by Fire Size Category Over Time, in the Snake River Plain Ecoregion, 1960-2003.....	9.33
Table 9-7.	The Average Fire Size (Top) and Total Area Burned (Bottom) in Hectares by Size Class Over Time, in the Idaho National Laboratory, and the Snake River Plain and Northern Basin and Range Ecoregions,1960-2003.....	9.34
Table 9-8.	Pearson's Product-Moment Correlations Between Precipitation (PPT) and Maximum Temperature (TMAX), and Large Fire Size (ha)	9.35
Table 10-1.	Idaho Cleanup Project Contractor Performance Evaluation Samples Outside Performance Acceptance Limits (2008).....	9.13
Table 10-2.	Idaho Cleanup Project Contractor Liquid Effluent Program Relative Percent Difference Results (2008).....	9.13
Table 10-3.	Wastewater Land Application Permit Rejected Groundwater Results (2008).....	9.14
Table 10-4.	Groundwater Relative Percent Difference Results (2008)	9.15
Table 10-5.	Groundwater Performance Evaluation Sample Results (2008)	9.16
Table 10-6.	Idaho Cleanup Project Drinking Water Program Relative Percent Difference Results (2008)	9.17
Table A-1.	Derived Concentration Guides for Radiation Protection	A.4
Table A-2.	Radiation Standards for Protection of the Public in the Vicinity of Department of Energy Facilities.....	A.5

Table A-3.	Environmental Protection Agency Ambient Air Quality Standards	A.5
Table A-4.	Environmental Protection Agency Maximum Contaminant Levels for Public Drinking Water Systems and State of Idaho Groundwater Quality Standards for Radionuclides and Inorganic Contaminants	A.6
Table A-5.	Environmental Protection Agency Maximum Contaminant Levels for Public Drinking Water Systems and State of Idaho Groundwater Quality Standards for Organic Contaminants	A.7
Table A-6.	Environmental Protection Agency Maximum Contaminant Levels for Public Drinking Water Systems and State of Idaho Groundwater Quality Standards for Synthetic Organic Contaminants	A.8
Table A-7.	Environmental Protection Agency Maximum Contaminant Levels for Public Drinking Water Systems and State of Idaho Groundwater Quality Standards for Secondary Contaminants	A.9
Table B-1.	Historical Low-Volume Radiological Air Sampling Locations and Dates of Operations	B.3
Table C-1.	Tests of Normality for Boundary Locations	C.6
Table C-2.	Summary Statistics for Boundary Locations	C.8
Table C-3.	Regression Equations and Associated Statistics for Boundary and Distant Locations.....	C.11
Table C-4.	Ninety-five Percent Confidence Intervals on the True Slope	C.12
Table D-1.	Central Facilities Area Sewage Treatment Facility Influent Monitoring Results (2008).....	D.1
Table D-2.	Central Facilities Area Sewage Treatment Plant Effluent Monitoring Results (2008).....	D.1
Table D-3.	Advanced Test Reactor Complex Cold Waste Pond Effluent Monitoring Results (2008).....	D.2
Table D-4.	Advanced Test Reactor Complex Cold Waste Pond Aquifer Monitoring Well Groundwater Results (2008).....	D.3
Table D-5.	Idaho Nuclear Technology and Engineering Center Sewage Treatment Plant Influent Monitoring Results for CPP-769 (2008)	D.4
Table D-6.	Idaho Nuclear Technology and Engineering Center Sewage Treatment Plant Effluent Monitoring Results for CPP-773 (2008).....	D.4
Table D-7.	Idaho Nuclear Technology and Engineering Center New Percolation Ponds Effluent Monitoring Results for CPP-797 (2008).....	D.5
Table D-8.	New Percolation Pond Groundwater Results for Aquifer Wells (2008)	D.6
Table D-9.	New Percolation Pond Groundwater Results for Perched Water Wells (2008).....	D.7
Table D-10.	Test Area North/Technical Support Facility Groundwater Results (2008)	D.8
Table D-11.	Advanced Test Reactor Complex Cold Waste Pond Results (2008)	D.10
Table D-12.	Advanced Test Reactor Complex Cold Waste Pond Industrial Wastewater Reuse Permit Monitoring Results in October 2008.....	D.10
Table D-13.	Liquid Influent and Effluent Surveillance Monitoring Results for Central Facilities Area (2008)	D.11

Table D-14.	Liquid Influent and Effluent Surveillance Monitoring Results for Idaho Nuclear Technology and Engineering Center (2008)	D.12
Table D-15.	Surveillance Monitoring Results for Material and Fuels Complex Industrial Waste Pond (2008)	D.13
Table D-16.	Surveillance Monitoring Results for Materials and Fuels Complex Industrial Waste Ditch (2008).....	D.14
Table D-17.	Surveillance Monitoring Results for Materials and Fuels Complex Secondary Sanitary Lagoon (2008)	D.15
Table F-1.	Environmental Dosimeter Measurements at the Materials and Fuels Complex (MFC) (2008)	F.1
Table F-2	Environmental Dosimeter Measurements at the Auxiliary Reactor Area (ARA) (2008).....	F.2
Table F-3.	Environmental Dosimeter Measurements at the Central Facilities Area (CFA) (2008)	F.3
Table F-4.	Environmental Dosimeter Measurements at the Idaho Nuclear Technology and Engineering Center (INTEC) (2008)	F.4
Table F-5.	Environmental Dosimeter Measurements at the Naval Reactors Facility (NRF) (2008).....	F.5
Table F-6.	Environmental Dosimeter Measurements at the Critical Infrastructure Test Range Complex (CITRC) (2008)	F.6
Table F-7.	Environmental Dosimeter Measurements at the Radioactive Waste Management Complex (RWMC) (2008)	F.7
Table F-8.	Environmental Dosimeter Measurements at the Test Area North (TAN) (2008).....	F.8
Table F-9.	Environmental Dosimeter Measurements at the Reactor Technology Complex (RTC) (2008).....	F.9
Table F-10.	Environmental Dosimeter Measurements Along Lincoln Blvd. and US Highway 20 (2008).....	F.10
